Subject:	EMERGENCY EVACUATION EASEMENTS - 27 JAN.
Date:	Saturday, January 18, 2014 8:41:54 AM

DAVID GRAHAM, PRESIDENT AGLL

DEAR DAVID:

Warmest greetings for the new year. Reference our previous correspondence 10/28/13 and 10/31/13 in which we had invited your presence and input at the Navajo Community Planners Inc. meeting scheduled for Nov. 18th and had requested an excerpt from your AGLL minutes showing the official responses to our proposals for an Emergency Evacuation Easement across your facilities.

As it turned out NCPI cancelled their Nov. 18 meeting and our item slipped through the cracks on their Dec. 16th meeting, but Matt Adams confirms that we are on the NCPI agenda for Jan. 27, 2014. So we renew our invitation to you to be present and express your perspectives regarding the proposal.

In the absence of an excerpt from the AGII minutes, we would express our understanding of your actions on Oct. 10th to be:
(1) AGII rejects the proposal of the Emergency Evacuation Easement connecting Old Cliffs Road to Estrella Ave.
(You are already working on expanding that field so there is no room for vehicles there.)

(2) AGII approves the concept of certifying the upper ball field as an emergency evacuation helicopter pad.

(3) AGII gives "conditional" approval of the proposed Emergency Evacuation Easement connecting Old Cliffs Road to Halifax St.
(pending AGLL approval of the final engineering drawings).

Please alert me if any of this in incorrect.

During this next week we will again pass out a flier to the residents on Halifax St. alerting them to the scheduled NCPI meeting on January 27, 2014, at the Zion Ave. Community Church, 4880 Zion Ave., San Diego, and inviting their input.

Meanwhile, thanks to your group for clearing that upper area of brush both revealing a better understanding of the area involved as well as eliminating a tempting spot for homeless encampments.

Thanks again for your kind consideration of these proposals.
Blessings on you --

Larry J. Webb
Deputy Park Captain
The Cliffs Emergency Response Team
