

"Working together to engineer a better tomorrow."

Infrastructure Projects:

- ▲ Airports
- ▲ Bikeways
- ▲ Bridges
- ▲ Drainage Control Facilities
- ▲ Flood Control Facilities
- ▲ Libraries
- ▲ Parks
- ▲ Recreation Centers
- ▲ Police Stations
- ▲ Fire Stations
- ▲ Lifeguard Stations
- ▲ Street Improvements
- ▲ Street Lights
- ▲ Traffic Signals
- ▲ Utilities Undergrounding
- ▲ Water Facilities
- ▲ Sewer Facilities
- ▲ Water Pipelines
- ▲ Sewer Pipelines

SEWER AND WATER GROUP JOB 940

Background

The City of San Diego has more than 3,250 miles of water and 3,000 miles of wastewater pipelines to provide water and wastewater services to its businesses and residences. Some pipelines are more than 100 years old, are deteriorating, and are in need of replacement, repair and upgrades. To avoid future service disruptions, such as sewer main stoppages, spills and water main breaks, the aging pipelines are replaced or rehabilitated. The new pipelines will bring the existing sewer and water mains up to modern standards, accommodate community growth and reduce maintenance requirements.

Project Overview

This project will replace 11,540 linear feet (2.19 miles) of water pipelines and 10,292 linear feet (1.95 miles) of sewer pipelines with the communities of El Cerrito, Rolando, Redwood Village, Rolando Park and Oak Park.

The project will also rehabilitate 605 linear feet (0.11 miles) of existing sewer pipeline within the City's right of way. Approximately 883 linear feet of sewer pipe currently located on easements will be relocated to City right of way to improve access and facilitate maintenance. New curb ramps will be constructed where needed, and the impacted streets will be resurfaced.

Project Schedule

Construction: September 2014 through August 2016*

*All dates are approximate and subject to change.

Project Budget

The project's planning, design, and construction budget is \$8,704,091.
